## PROJECTS

### Expense Tracker - WalletBuddy (Source Code)

(HTML5, CSS3, JavaScript, MongoDB, React.js, Node.js, Git, GitHub)

- Designed and built a full-stack **MERN** expense tracker with support for adding incomes and expenses.
- Integrated **MongoDB Atlas** for secure cloud-based storage of user transactions.
- Added features like **category filtering**, **search functionality**, and **dynamic charts** (bar and pie) for income/expense summaries.
- Created a modern, responsive UI with **dark/light themes**, a dashboard layout, and sidebar navigation.
- Implemented real-time income graphs on both the login and main tracker pages using **Chart.js**.
- Focused on clean code, modular components, and consistent styling using a centralized CSS strategy.

### Personal Portfolio (Live) (Source Code)

(HTML5, CSS3, JavaScript, Git, GitHub)

- Built a **responsive personal portfolio website** using **HTML**, **CSS**, and **JavaScript** to showcase projects and achievements.
- Integrated a **Resume button** to directly attach and download resume for recruiters.
- Connected the project with **GitHub & Netlify** for **continuous deployment**, ensuring updates reflect automatically without changing the link.
- Designed a **modern, user-friendly interface** with clean layout, smooth navigation, and responsive design for desktop and mobile.
- Used **version control (Git/GitHub)** to manage project updates efficiently.
